Subject: Approval of Transfer and Reclamation Surety of Small Mining Operation, Park Valley Quartzite, LLC, Green Beetle Quarry, S/003/017, Task # 1992, Box Elder County, Utah

Dear Mr. Larsen:

On September 5, 2007, the Division approved the transfer of the Green Beetle Quarry from Bonneville Quarries, Inc to Park Valley Quartzite, LLC. The reclamation contract and surety were also approved on this date. With this approval, Bonneville Quarries, Inc. is hereby released from any further reclamation liability at this site. Enclosed for your records are copies of the approved transfer, reclamation contract and reclamation surety.

At this time, we ask that you update the Notice of Intent to properly identify Park Valley Quartzite as the permittee (a copy of the appropriate pages of Form MR-SMO are attached for this purpose). We ask that you complete the highlighted sections on these pages and return them to the Division within two weeks.

As you continue operations in the Green Beetle Quarry, please keep in mind the following regulatory requirements.

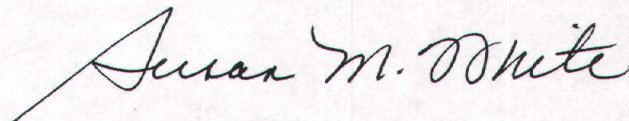

- Mining disturbance is only allowed in the area identified in the Notice and Reclamation Contract.
- Stockpiling topsoil material prior to ground disturbance will help ensure successful revegetation. Even the first few inches of material are worth saving to aid in later revegetation efforts, and future regulatory surety release.
- If you encounter any archaeological or historical items, you are asked to notify this office and State History of your find.
- Permit fees are due July 30.
- Annual reports are due by December 31st.
- The reclamation surety will be reviewed every 3 years.

- The Division request that the disturbed area boundary (including assess/haul roads) be marked with metal T-posts to identify the area permitted for mining.

The Division's web page at <http://ogm.utah.gov/> under the Mining Program has a link to the rules you are expected to operate under and other information to assist you in complying with program requirements. Thank you for your cooperation. In reply, please refer to file number S/003/017. If you have questions or concerns regarding this letter, please contact me at (801) 538-5258 or Lynn Kunzler at 538-5310. Best wishes with your mining venture.

Sincerely,

Susan M. White  
Mine Program Coordinator  
Minerals Regulatory Program
